

Color 4 Cameron Benefit for Cameron Donaldson

March 20th
6-11pm
KC Hall
2822 N Ctr St
Maryville, IL 62062

He is a six year old bright and loving boy. When he was just 6 months old we discovered that he had neurofibromatosis, a disorder causing tumors along nerve paths.

Currently he has a large tumor that is invading the entire right side of his body and is threatening his life. The tumors cannot be removed surgically and medications have failed. He must travel to Maryland where he will be treated with a study drug that will hopefully stop the growth of this enormous tumor, possibly shrinking it!
